Botulinum Toxin Course Level-1

FOUNDATION BTX

About the Course

In the last decade, Botulinum Toxin Type A has become the most popular non-surgical treatment in the cosmetic industry. This comprehensive skills-based course for new users of Botulinum Toxin in facial aesthetics, designed to help you get started on common facial treatment areas.

The most common use of Botulinum Toxin is to reduce muscle activity in the upper face, to help minimising signs of ageing. This one day training course will provide you with a comprehensive introduction to injecting Botulinum Toxin into the 3 key areas of the upper face:

- Crow's feet
- Frown lines
- Horizontal Forehead lines

Botulinum Toxin Course Level-1 is usually the start point of entering into aesthetics for many medical professionals. The course is also suitable to refresh and improve your confidence or enhance technique.

Botulinum Toxin Course Level-1

FOUNDATION BTX

About the Course

The course will focus mainly on Allergan Botulinum Toxin, but we have no associations so it is transferable with other products provided further training is undertaken.

The delegates will observe the injections techniques which are demonstrated by our qualified doctors on real patients before they practice the areas covered on real patients. We aim the sufficient experience is obtained by the delegates for their clinical practice. To ensure that everyone of the delegates receives sufficient hands-on experience, we strictly limit the number of delegates on each course.

CURRENT EMPLOYMENT EXPERIENCE

I am the founder and managing director of North West Aesthetics Ltd. We currently have a based clinic located in Wigan and a number of satellite clinics across the North West of England, providing treatments to advanced level in Aesthetics. We specialise in Botox®, Dermal Fillers, Lip Augmentations, Chemical Peels, Derma-roller, Cryotherapy, Laser, FUE Hair Transplantation & the Obagi System.

The company is well established with a large client base, and we are currently looking to expand across the United Kingdom with the prospect of a franchise in this area.

We have clients that travel from over 12 countries to our clinics, and we have been documented in a number of Aesthetic Magazines, including “Image Cheshire” and “The Cosmetic Surgery & Aesthetics Guide”. We also have a training company providing training in Aesthetics to advanced level for Doctors, Dentists and Nurses Prescribers.

I previously was a non-executive director & clinical lead trainer for Fluent Health, a large

international training academy backed by the department of health (DOH). I have undertaken a number of training courses on their behalf, including recently an international training course at the Royal College of Physicians (London) for Turkish Dentists.

I currently hold a prestigious role as a regional trainer for Allergan and provide training course on behalf of Allergan across the North West in Juvederm Voluma.

AESTHETIC ORGANISATIONS

I am currently a member of the British Association of Cosmetic Doctors (BACD) & British Association of Aesthetic Practitioners (BSoAP).

HONOURS

I was recently invited with only a handful of practitioners across the world, to the Allergan manufacturing facility in Westport Ireland, to gain experience into the workings of Allergan as a company and further my own progression in the field of aesthetics.

AESTHETIC EXPERIENCE

At the age of 33, I am one of the youngest most successful aesthetic doctors in the industry, with a portfolio of over 40,000 treatments and founder of North West Aesthetics, a company which is now matching turnover with some of the larger corporate aesthetic companies. I practice and train aesthetics to the highest level, and have clients travel from over 12 countries to our clinics with a number of high profile clients. I have a passion for dermatology and want to learn and share my experiences with colleagues and clients, which is shown in my easy but professional going nature.

AESTHETIC MENTORING

I have been a mentor on a number of occasions for the nurse prescribing V300 course, focusing mainly on the prescribing & consultation aspects of facial aesthetics for a number of nurses across the North West of England.

Dental & Medical
Trainings

A dedicated platform to the continuing dental & medical education.

We all aware that, to perform profession, graduating from a dental or medical school and enriching knowledge acquired throughout education life by 30-35 years of experience is not valid any longer.

As Information changes and progresses so fast in this new era, dentists need continuing post-graduate education to update their knowledge, to access new information or to take the advantage of expert experience, just as how they have to constantly renew equipment in their practice and add new things.

This necessity is exactly what Knightsbridge Academy (KA) was emerged from. In order to provide doctors with respective needed knowledge from reliable sources and via safe channels, Knightsbridge Academy offers variety of trainings on dental and paradental fields to the attention of dentists and team members.

Knightsbridge Academy has determined a one-sentence mission:

For a better dentistry and medicine, continuing postgraduate education.

We thank you for your kind interest and trust.
