
COMBINED TRAINING COURSE

Botulinum Toxin & Dermal Filler

Knightsbridge Academy
Dental & Medical Trainings

Safe. Confident.

Knightsbridge Academy offers the perfect introductory course for doctors who are new to the world of aesthetics.

You will learn everything you need to get you started in carrying out Botulinum Toxin A and injectable dermal filler treatments in your practice.

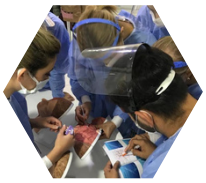
Aim

To enable the participant to become a Medical Aesthetics Practitioner who is safe, confident and efficient in the use of Botulinum Toxin A (BOTOX) and Dermal Fillers (Hyaluronic Acid) by updating and consolidating previous theoretical knowledge and clinical experience in the use of aesthetics drugs and needle techniques.

Teaching Methods.

Theoretical lessons

Learn the anatomy first



Hands-on practice on phantoms

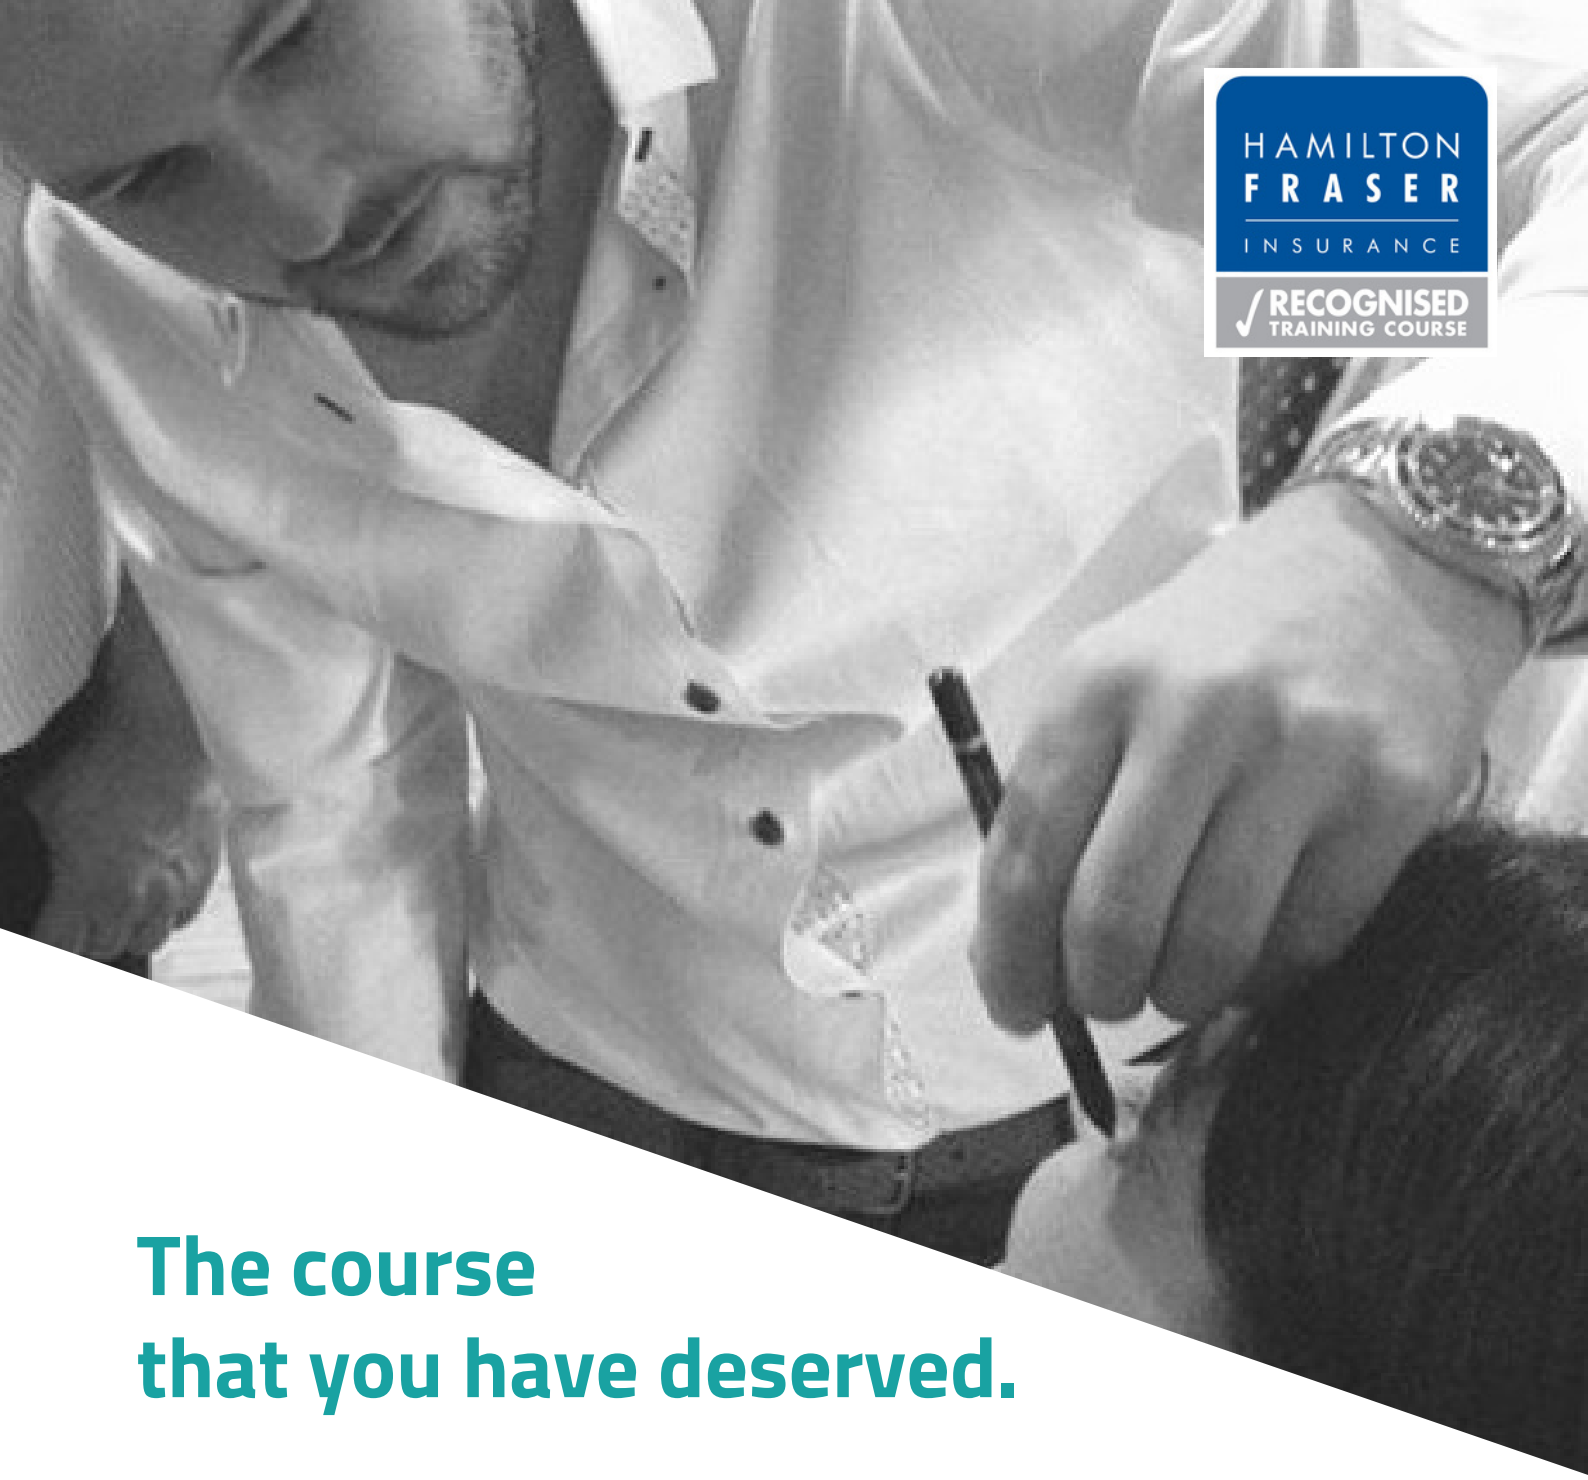
Reflect what you learned on special manikins

Demonstration

Watch the lecturers while they are practicing on live models

Real-world experience

Practice on live volunteer models that we will provide



The course that you have deserved.

As all of us agreed on, selecting the right training course is more important than ever because the aesthetics industry is growing fastly.

The delegates will observe the injections techniques which are demonstrated by our qualified doctors on real patients before they practice the areas covered on real patients. We aim the sufficient experience is obtained by the delegates for their clinical practice.

To ensure that everyone of the delegates receives sufficient hands-on experience, we strictly limit the number of delegates on each course.

Combined.
Well managed.
Valued.

Learning Aims & Objectives

- Help for understanding the principles of assessing a face from an aesthetic point of view.
- Comprehensively understand how botulinum toxin dermal fillers are used and how they work.
- Understand detailed instruction in conducting an effective consultation, medical record documentation and risk management.
- Enable to select suitable clients for the treatment & to plan an effective treatment of Botulinum Toxin and/or dermal filler.
- Evaluate and manage instruction for successful and safe treatment of appropriate sites.
- Obtain the knowledge and practical skills to start carrying out the treatment.
- Advices on where the new users may seek professional support following the course.
